

Relatório Completo – Teamcenter 2606

Data de Geração: 2026-08-26

Servidor: SRV26-TC1-DEV

Ambiente: DEV (Desenvolvimento)

1. Informações Gerais

Propriedade	Valor
Versão	2606.0.0.2026052800
Versão Completa	2606:2026052800
Data do Build	Quinta-feira, 28 de Maio de 2026, 21:17:19 IST
Aplicação	tceng (Teamcenter Engineering)
Diretório de Instalação	E:\PLM\Teamcenter2606
Diretório de Dados	E:\PLM\tcdata2606
Diretório de Origem	E:\InstaladoresPLM2606\TC_2606\tc2606_wntx64\tc2606_wntx64
Usuário de Instalação	siemens.aldo
Idioma	ENGLISH
Upgrade De	Teamcenter 2512 (E:\PLM\Teamcenter2512)
Servidor	SRV26-TC1-DEV
Engine TEM	2008.0.0

2. Configuração do Banco de Dados

Configuração	Valor
Tipo de Banco	Microsoft SQL Server (MSSQL)
Host do Banco	172.18.2.51
Porta	1433
Instância	MSSQLSERVERDEV (v15)
Database TC	tc_DEV_2026
Database Cluster	TcClusterDB_DEV_2026
Usuário DB	infodba
Autenticação Windows	false
Collation	Latin1_General_BIN
Caminho Dados SQL	Y:\MSSQL15.MSSQLSERVERDEV\MSSQL\Data

3. Configuração de Infraestrutura

3.1 TC Server

Configuração	Valor
Endpoint	http://localhost:7001/tc/
Protocolo	HTTP
FSC Address	http://SRV26-TC1-DEV:4544/
HTTP Endpoint	http://localhost:8080/tc

3.2 TCCS (Teamcenter Common Services)

Configuração	Valor
Max Idle Time	240 min
Max Connections/Host	8
Total Max Connections	10
Connection Timeout	90000 ms
Socket Timeout	90000 ms
Kerberos	Desabilitado

3.3 FMS/FSC (File Management System)

Configuração	Valor
Parent FSC	http://SRV26-TC1-DEV:4544/
Assignment Mode	clientmap

3.4 Search Engine (Solr)

Configuração	Valor
Versão Solr	9.6.0
Admin User	solr_admin
Node	SRV26-TC1-DEV:30066
Local Node Port	30077
Schema	TC_SOLR_SCHEMA.xml

3.5 Microservices

Serviço	Descrição
eureka_server	Service Discovery (Eureka)

Serviço	Descrição
gateway	API Gateway
file_repo	File Repository Service
darsi	DARSI Service
tcgql	Teamcenter GraphQL
req_export_service	Requirements Export
req_import_service	Requirements Import
service_dispatcher	Service Dispatcher
microserviceparameterstore	Parameter Store

3.6 Outras Configurações

Configuração	Valor
NX Home	E:\PLM\NX_2406
License Server	28000@lic01
Process Manager	Instalado (ProcessManagerService.exe)
Pool Manager	Instalado
DOTNET Micro Proxy	Instalado
JWT Config Tool	Instalado

4. Features e Módulos Instalados (168 total)

4.1 Infraestrutura Core

#	Feature
1	Microsoft Visual C++ Runtimes

#	Feature
2	Microsoft Edge WebView2 Runtime
3	FOSS Repository
4	Microservices Manager
5	Microservices Framework
6	FMS Server Cache
7	Server Manager
8	Indexer
9	Search Engine
10	Dispatcher Server
11	Client Communication System (Core)
12	Client Configuration

4.2 Teamcenter Foundation

#	Feature
13	Teamcenter Foundation
14	Business Modeler IDE
15	Business Modeler Templates
16	Business Modeler IDE 2-tier
17	Business Modeler IDE 4-tier
18	Teamcenter Rich Client 4-tier
19	Teamcenter Management Console
20	Preference Management
21	UI Builder
22	XRT Editor

#	Feature
23	Sample Files

4.3 Active Workspace

#	Feature
24	Active Workspace Client
25	Active Workspace Gateway
26	Active Workspace/Runtime Server
27	Active Workspace/Data Model
28	Search for Active Workspace Client
29	Active Workspace Visualization 2D Viewer
30	Viewer Administration
31	Viewer Tool Client Utilities
32	Viewer Snapshot Tool
33	Viewer Refset and Leaf Structure
34	Active Content
35	Digital Thread Navigation
36	3D Visualization
37	Geometric Tool
38	PMI Tool
39	Relations Component
40	Rich Text Editor for Active Workspace Client
41	Markup for Active Workspace Client
42	Tcme AW Icons

4.4 Serviços Core

#	Feature
43	Teamcenter Task Manager Service
44	Action Manager Service
45	Teamcenter Read Expression Manager Service
46	Subscription Manager Service
47	Teamcenter Revision Configuration Accelerator Service
48	Audit/Runtime Server
49	Audit/Data Model
50	Audit Client

4.5 Gestão de Documentos e Conteúdo

#	Feature
51	Document Management for Active Workspace Client
52	Active Workspace Document Management/Runtime Server
53	Active Workspace Document Management/Data Model
54	Content Management Client
55	Active Content Structure/Runtime Server
56	Active Content Structure/Active Content Structure
57	TC XML Import and Export/Data Model
58	TC XML Import and Export/Runtime Server

4.6 Workflow e Processos

#	Feature
59	Workflow

#	Feature
60	Workflow for Active Workspace
61	Build Conditions/Runtime Server
62	Build Conditions/Data Model
63	Support for Concurrent Modeling

4.7 Gestão de Mudanças

#	Feature
64	Change Management/Data Model
65	Change Management 4th Generation Interface/Data Model
66	Change Management 4th Generation Interface/Runtime Server
67	Change Management 4th Generation Interface/Change Management 4th Generation Interface For Rich Client
68	Change and Schedule Management Interface/Runtime Server
69	Change and Schedule Management Interface/Change and Schedule Management Interface
70	Change and Schedule Management Interface/Data Model
71	Kanban Interface for Active Workspace

4.8 Schedule e Projeto

#	Feature
72	Schedule Manager
73	Schedule Manager for Active Workspace/Runtime Server
74	Schedule Manager for Active Workspace/Data Model
75	Gantt Interface for Active Workspace
76	Project Assignment

4.9 Classificação

#	Feature
77	Classification Interface/Data Model
78	Classification Interface/Runtime Server
79	Classification Server/Classification Server/Data Model
80	Classification Server/Runtime Server
81	Classification AI
82	NX Part Family Classification Integration

4.10 Integrações CAD

#	Feature
83	NX Foundation/Runtime Server
84	NX Foundation/Data Model
85	NX Fixed Plane Additive Manufacturing Integration/Data Model
86	Autodesk AutoCAD Foundation/AutoCAD Foundation
87	Integration for SolidWorks/Teamcenter Integration for SolidWorks
88	Integration for SolidWorks/Runtime Server
89	Integration for Creo/Runtime Server
90	Integration for Creo/Integration for Pro/ENGINEERING
91	Integration for CATIA/Integration for CATIA
92	Integration for CATIA/Runtime Server
93	Teamcenter Integration for Solid Edge/Solid Edge Embedded Client Overlay
94	Teamcenter Integration for Solid Edge/Runtime Server
95	EQCustomization/Runtime Server
96	EQCustomization/Data Model

#	Feature
97	PlantSimulationIntegration/Data Model

4.11 Active Integration (AIG/T4S)

#	Feature
98	Active Integration for Active Workspace
99	Active Integration/Data Model
100	Active Integration/Runtime Server
101	Teamcenter Gateway for SAP Business Suite and S/4HANA/Integration for Rich Client
102	Teamcenter Gateway for SAP Business Suite and S/4HANA/Teamcenter Gateway For SAP
103	Gateway for modeling/Runtime Server
104	Gateway for modeling/Gateway for modeling/Data Model

4.12 Manufatura

#	Feature
105	Manufacturing Foundation/Runtime Server
106	Manufacturing Foundation/Data Model
107	Teamcenter Manufacturing Access/TCMAccess for Rich Client
108	Teamcenter Manufacturing Access/Data Model
109	Teamcenter Manufacturing Access/Runtime Server
110	Easy Plan - mbc0mfgbvrcore client
111	Core services for manufacturing on BVR/Data Model
112	Core services for manufacturing on BVR/Runtime Server
113	Core services for manufacturing on BVR/Easy Plan Interoperability for Rich Client
114	EasyPlan Active Workspace Infrastructure/Data Model

#	Feature
115	EasyPlan Active Workspace Infrastructure/Runtime Server

4.13 Requirements Management

#	Feature
116	Data Discovery Services Client
117	Data Discovery Services/Data Model
118	Data Discovery Services/Runtime Server

4.14 Reporting

#	Feature
119	Reporting Client
120	Reporting for Active Workspace/Runtime Server
121	Reporting for Active Workspace/Data Model

4.15 Branching e Versionamento

#	Feature
122	Branch Data Organization/Runtime Server
123	Branch Data Organization/Data Model
124	Branching and Versioning Foundation/Runtime Server
125	Branching and Versioning Foundation/Branching and Versioning Foundation/Data Model

4.16 Visão de Engenharia e Simulação

#	Feature
126	Engineering Views/Runtime Server
127	Engineering Views/Engineering Views Data Model

#	Feature
128	Test Manager/Runtime Server
129	Test Manager/Data Model
130	Test Manager/Test Manager for Rich Client
131	Customization for Process Simulate Integration/Data Model

4.17 APS (Advanced PLM Services)

#	Feature
132	Advanced PLM Services core Template/Advanced PLM Services Core For Rich Client
133	Advanced PLM Services core Template/Runtime Server
134	Advanced PLM Services core Template/Advanced PLM Services core Template/Data Model
135	APS Configured Search Framework/Data Model
136	APS Configured Search Framework/Runtime Server
137	Advanced PLM Services for Applications/Data Model
138	Advanced PLM Services for Applications/Advanced PLM Services for Applications For Rich Client
139	Advanced PLM Services for Applications/Runtime Server

4.18 Outros Módulos

#	Feature
140	Active Collaboration Client
141	Active Collaboration/Runtime Server
142	Active Collaboration/Data Model
143	Active Collaboration for Retail Solution [DEPRECATED]/Runtime Server
144	Active Collaboration for Retail Solution [DEPRECATED]/Data Model

#	Feature
145	Security
146	MFE Common Client
147	PS Component
148	Task Management for Active Workspace
149	Subscription/Runtime Server
150	Subscription/Data Model
151	Active Workspace Assistant/Runtime Server
152	Active Workspace Assistant/Data Model
153	Authorization Active Workspace/Runtime Server
154	Authorization Active Workspace/Data Model
155	Active Architect Core/Data Model
156	Active Admin Core/Data Model
157	Common Integration Framework/Runtime Server
158	Common Integration Framework/Data Model
159	Logical Object
160	Translation Service Database Module/Data Model
161	bruning/Runtime Server
162	bruning/Data Model
163	Usage Foundation for Active Workspace/Data Model
164	Visualization Extension for Active Workspace/Data Model
165	Visualization Extension for Active Workspace/Runtime Server
166	Relationship Viewer
167	Realization
168	Rich Text Editor for Active Workspace Client

5. Short Names dos Módulos

Short Name	Descrição
Calendar Management	Gestão de Calendários
Change Management	Gestão de Mudanças
Document Management Client	Gestão de Documentos
Gantt Interface	Interface Gantt
Kanban Interface	Interface Kanban
Markup	Anotações
Preference Management	Gestão de Preferências
Reporting	Relatórios
Requirements Management	Gestão de Requisitos
Rich Text Editor	Editor de Texto Rico
Schedule Manager	Gestão de Agenda
Search	Busca
TCME AW Icons	Ícones TCME AW
Task Management	Gestão de Tarefas
Workflow	Fluxo de Trabalho

6. Template Names (Identificadores Internos)

Template Name	Módulo
awa0awassistant	Active Workspace Assistant
ac0activecollaboration	Active Collaboration

Template Name	Módulo
adm1admconsolecore	Admin Console Core
aps0apscore	Advanced PLM Services Core
arm1awreqmgmtse	AW Requirements Management
aut0authorizationaws	Authorization AWS
aws2	Active Workspace Server 2
bcs0buildconditions	Build Conditions
bdo0branchdataorganization	Branch Data Organization
bhv1branchingandversioning	Branching and Versioning
bhv0branchfoundation	Branch Foundation
Cm1cmaws	Change Management AWS
classification	Classification
cls1classificationaw	Classification AW
csi1cmsmawinterface	CMS AW Interface
dds0datadiscovery	Data Discovery
eqcustomization	EQ Customization
epa0easyplanawinfra	EasyPlan AW Infrastructure
evm1viewmgmtaw	View Management AW
evm0viewmgmt	View Management
fgc0cm4g	Change Management 4G
ics1icsaw	Integration Content Structure
integration4catia	CATIA Integration
ipem	iPEM (Creo Integration)
lo1logicalobject	Logical Object
mbc0mfgbvrcore	Manufacturing BVR Core

Template Name	Módulo
mfg0foundation	Manufacturing Foundation
mrm0mfgresourcemgr	Manufacturing Resource Manager
nx0tcin	NX TC Integration
partition	Partition
prf1prefmgmt	Preference Management
ps	Process Simulate
pm0partmanufacturing	Part Manufacturing
rb0reportingaw	Reporting AW
realization	Realization
relationshipviewer	Relationship Viewer
req_export_service	Requirements Export Service
req_import_service	Requirements Import Service
s1clsocial	Social/Collaboration
saw1projectmanagementaw	Project Management AW
srh0apsconfiguredsearch	APS Configured Search
t4s	T4S (SAP Integration)
tca0tcaccess	TC Manufacturing Access
tm0tsm	Test Manager
tie0aw	Teamcenter Integration Engine
um0usermanagement	User Management
classification_ai	Classification AI

8. Histórico de Upgrades

O ambiente foi submetido a múltiplas tentativas de upgrade/instalação entre 20-26 de Agosto de 2026:

Data	Log File
20/08/2026	install_TC_2608201755_290.log
22/08/2026	install_TC_2608221728_40.log
22/08/2026	install_TC_2608221744_38.log
23/08/2026	install_TC_2608230858_55.log
26/08/2026	install_TC_2608261326_53.log
26/08/2026	install_TC_2608261328_38.log

Checkpoints de upgrade registrados: rac4t, datamodel, web, rac, microservice, micro_group, indexer, rtserver.

9. Integrações CAD Instaladas

Integração	Versão	Status
NX Integration	2606	Instalado
SolidWorks Integration (SWIM)	2606	Instalado
Creo Integration (iPEM)	2606	Instalado
CATIA Integration	2606	Instalado
Solid Edge (SEEC)	2026	Instalado
AutoCAD Foundation	2606	Instalado
Plant Simulation	2606	Instalado
Process Simulate	2606	Instalado

10. Resumo Executivo

- **Ambiente:** Teamcenter 2606 em upgrade a partir do TC 2512

- **Banco:** SQL Server 2019 (MSSQL) em 172.18.2.51
- **Total de Features:** 168 módulos instalados
- **Integrações CAD:** 8 sistemas (NX, SolidWorks, Creo, CATIA, Solid Edge, AutoCAD, Plant Sim, Process Sim)
- **Microservices:** 9 serviços (Eureka, Gateway, File Repo, DARSI, GraphQL, Req Export/Import, Dispatcher, Parameter Store)
- **Busca:** Apache Solr 9.6.0
- **AW Client:** Active Workspace Client completo com visualização 2D/3D
- **SAP:** Teamcenter Gateway for SAP Business Suite e S/4HANA (T4S)
- **Classificação:** Interface + Server + AI
- **Manufatura:** Foundation + BVR + EasyPlan + Resource Manager
- **Status:** Ambiente de desenvolvimento (DEV) com múltiplas tentativas de instalação em Agosto/2026

Relatório gerado automaticamente via tc-bridge MCP tunnel
